

CLASSIC PTO DRIVE SHAFT

The Durable Worker for the Variety-of-Classic PTO Applications

For the drive train application that needs to have up to 170 horsepower, our Classic drive shaft delivers quality components to ensure your drive shaft works as hard as your operator needs it to.

When to Use Classic

The Classic drive shaft is perfect for the run-of-the-mill applications that require up to 170 horsepower. Perfect for the equipment owner that has a variety of everyday applications, this drive shaft is comprised of quality components, that can be easily maintained, replaced, or upgraded.

Classic Features & Benefits

- Designed to meet ASABE and CEN safety requirements.
- Provides up to 170hp @540RPM for intermittent duty cycle machines that run through tougher jobs on a regular basis.
- Weasler yokes are built to minimize noise and vibration. With our classic drive shaft, choose a Spring-Lok, Safety Slide Lock, or an Auto-lok yoke.
- Our universal joints offer a variety of grease fitting options for easy maintenance. Choose a standard or constant velocity joint with 8-hour, or up to 250-hour maintenance intervals.
- Available with profile or sleeve telescoping, both designed for faster repositioning and better length accommodation.
- Select one of our clutches that offer superior torque overload protection. Choose between friction and shear, or add any available clutch (ratchet, auto, etc.).

Lemon

Trilobe

Star

Square

Spline

Choose which profile or sleeve telescoping tube that will work best for your application. Select from star, square, spline, lemon and trilobe.

Classic Drive Shaft, Quality Components

Classic drive shaft applications require a seamless transfer of power between a tractor and its attached machinery. As a global leader in mechanical power transmission, Weasler's focus on building quality drive shafts gives you the best drive train options for the operator with a variety of everyday applications.

With our well-thought through standard components, our Classic drive shaft is designed to pair perfectly with your everyday drive train equipment applications. If you would like to know more about our products or services, contact your local Weasler representative today.
