

## STANDARD PTO DRIVE SHAFT

*The Essential Workhorse for  
Just-the-Essentials PTO Jobs*

For low horsepower drive train applications, our Standard PTO drive shaft delivers all the quality components needed to ensure your equipment has the power it needs to get the job done.

### When to Use Standard

A Standard drive shaft is perfect for equipment that doesn't need more than 80 horsepower. Created for the value-conscious equipment owner that only needs the essentials, this drive shaft is comprised of quality components that are meant to be used occasionally.

Trilobe

Durable profile telescoping available with trilobe tubing.

### Standard Features & Benefits

- Meets the ASABE and CEN safety requirements.
- Provides up to 80hp @540RPM for projects that are used occasionally.
- Spring-loaded collar attaches and releases the yoke.
- Universal joint has easy to locate and access grease fitting.
- Durable profile telescoping transmits the right amount of torque.
- Optional addition of a friction or shear bolt torque limiter.

# Standard Product, Quality Components

Even low horse power applications require a seamless transfer of power between a tractor and its attached machinery. As a global leader in mechanical power transmission, Weasler's focus on quality components gives you the best drive train system for your essential drive train applications.

## Universal Joint

Universal joints provide standard-duty cycle with easy grease access.

## Profile Telescoping

Profile telescoping allows easy cut-to-length adjustment.

## Spring-lok Tractor Yoke

Spring loaded for easy installation and positive locking onto the tractor.

## Clutch Options

The Standard drive shaft can accommodate friction or shear torque limiters.

## Guard

Laboratory tested to meet North American safety standards.

With our well-thought through components, our Standard product is designed to deliver a drive shaft that pairs perfectly with lower powered drive train applications. If you would like to know more about our products or services, contact your local Weasler representative today.
