

STANDARD, CLASSIC, PROFESSIONAL

THE NEWEST PTO PRODUCT LINES FROM WEASLER

STANDARD, CLASSIC, PROFESSIONAL

THE RIGHT DRIVE SHAFT FOR YOUR SPECIFIC APPLICATION

Regardless of the size of your drive train application, we have a PTO that will give your equipment the power it needs, when it needs it. All Weasler PTO drive shafts are designed to meet the regional ASABE & CEN standards in which they will be used.

STANDARD

Fundamental jobs don't always require a lot of horsepower. For the occasional projects that need up to 80hp, the Standard Drive Shaft will keep equipment powered until the job is done.

- Up to 80hp for occasional-duty applications
- Spring-loaded collar tractor yoke
- Easy-to-locate for maintenance universal joint
- Durable, easy cut-to-length profile telescoping

CLASSIC

For the everyday projects, the Classic Drive Shaft provides up to 170hp, delivering the energy that you operator's need to complete their typical projects.

- Up to 170hp for intermittent-duty projects
- Choose Spring-lok, Safety Slide Lock, or an Auto-Lok yoke
- Select standard or constant velocity joints with 8-hour or up to 250-hour maintenance intervals
- Available with profile or sleeve telescoping

PROFESSIONAL

For the hard-hitting continuous-duty jobs that need up to 170 horsepower, the Professional Drive Shaft is the rugged workhorse that is ready to help your operator complete the toughest jobs.

- Up to 170hp for continuous-duty jobs
- Choose a Spring-lok, Safety Slide Lock, or an Auto-Lok yoke
- Choose standard or constant velocity joints with 8-hour, up to 250-hour or maintenance free
- Available with profile, sleeve, sealed or double-telescoping
